## SUMMARY

I'm a sound artist, composer and musician and a founder member of the electronic duo Rendezvous. Born in 1978, I live and work in Israel.

My recent works focuses on collecting and combining field recordings together with radio broadcasting, using sounds we're exposed to every day in the public and domestic spheres, often in passing or involuntarily. When performing, I use these sounds objects and sources to create multi-layered compositions in realtime.

My main project called Radio Concrete is played on a regular basis in art events/ festivals and it is broadcasted as a radio show every month on Halas am, Resonance Extra (UK) and Radio Papesse (ITA).

## EDUCATION

2015-2016 - Experimental Music and Sound Art at *Musrara* art school.

2010-2012 - Photography and painting (independent art institutes)

2001-2003 - *Rimon School of Jazz and Contemporary Music*.

1999-2002 - B.Sc in computer science at *The Open University*.
